Expansile, lytic lesion in fibula
Biopsy: Aneurysmal bone cyst

This seems “aneurysmal” and located in fibula, therefore ABC? Biopsy: Nonossifying fibroma

Christopher F. Beaulieu, M.D., Ph.D.
Professor of Radiology
Chief of Musculoskeletal Imaging
Stanford University, Stanford, CA

For 811 cases including 66 unique diagnoses, a key image from each case was annotated for 18 clinical and qualitative features using the AIM standard within ePad
